THE LARGEST CIRCULATION, ETC.

For a year or more the Bonanza has been receiving a steady stream of letters from concerns that asked for a chance to start some sort of a contest with the idea of increasing our circulation. These letters came from many eastern companies as well as outfits in Goldfield, San Francisco and other western points. To each and every one we have answered, "nothing doing."

The reason of our refusal is simply this. Today we have the largest circulation of any newspaper in southern Nevada, and a house to house canvass would hardly reveal a home in Tonopah that did not subscribe for the Bonanza. We have secured our circulation by printing the news and working for the benefit and advancement of this section. The news is demanded by the public and we have sought to comply with the demand. Today the Daily Bonanza is the best read paper in southern Nevada, if not in the state, and, strange as it may seem, our circulation is still growing. We have not been forced to reduce the price of subscription to hold our old subscribers or influence new ones, and continue to charge \$1.25 per month.

You can't tell the Parisians that the story of Noah and the deluge was a fable. They are in possession of corroborative evidence.

Senators who urge that the Pacific coast be well supplied with submarines evidently realize that aeroplanes can't get at such craft.

There is many a man who borrows his neighbor's paper who wouldn't think of swiping his dog.

DACITE FOUND BY LEASERS ON THE BOOTH

LEASERS DRIFTING ON SOUTH END TO CATCH RED TOP VEIN.

A good looking dacite ledge has been cut and is being drifted on in the Booth Leasing company's ground on the south end of the Booth, where they are trying to connect with the Red Top vein. This ledge was hit by the cross-cut on the 150-foot level driven into Columbia mountain from the shaft. At this depth there is but slight silicification in the ledge, but assays which started with about \$1 have increased until they are now \$3.50. The leasing company has a large block of ground, just across the railway track from the old Consolidated Red Top lease, and thorough development should disclose the continuation of the Consolidated Red Top ore shoot, which was originally opened near the surface on the Red Top in a shaft sunk by Sheriff Bradley.

Indications are that the vein has been twisted somewhat by the throw of Columbia mountain, but that it continues northward along that trend has been proven by other underground developments on adjacent territory. The Booth lease is controlled by Arthur Weber of Goldfield and J. A. McLaughlin and Henry Reese of Lincoln, Neb.—Goldfield Tribune.

STOCK MARKET

For the past year or more Monday has always been a day of declines for the Tonopah stocks on the San Francisco exchange. Yesterday the usual custom prevailed which resulted in Belmont losing 10 cents. Extension five points, Midway three points and West End one point.

Goldfield stocks fared a little better. Consolidated advanced 15 cents, while Booth made a one point gain. Florence lost five points.

Judge Alfred Bruce, a pioneer of Elko, died in that city Friday night, after a short illness of pneumonia. The deceased had acted as pallbearer at the funeral of Joseph Taber, an old-time friend, who a week before was lowered to his last resting place. The exposure resulted in the pneumonia. Mr. Bruce is survived by a widow, three sons and three daughters. One of the sons, George Bruce, is a resident of Luckyboy.
